PROFESSIONAL SUMMARY

Frontend Developer with 5+ years of experience building scalable, high-performance web applications using React.js, Next.js, and Angular. Proven track record delivering CRM and LMS platforms across government, banking, and logistics sectors, with deep expertise in TypeScript, performance engineering, and cross-functional team collaboration.

WORK EXPERIENCE

Frontend Developer

May 2025 – Present

Business Development Bank · Tashkent, Uzbekistan

- Own end-to-end frontend development of 5+ internal web applications – CRM systems, admin dashboards, and customer-facing landing pages – using Angular and React.js.
- Established Jest unit-testing standards across the frontend codebase, achieving 70%+ coverage on critical modules and catching regressions before production releases.

Frontend Developer

Dec 2022 – May 2025

Agency of Plant Protection and Quarantine · Tashkent, Uzbekistan

- Led end-to-end development of a CRM platform serving 2000+ internal users and entrepreneurs, automating client management workflows and cutting manual processing time by ~40%.
- Integrated Leaflet.js interactive map dashboards to visualize regional agricultural data across 12 districts, giving field teams real-time operational oversight.
- Designed and launched a mobile-first LMS for the agricultural sector in Next.js with HLS video streaming, real-time analytics, and server-side rendering – boosting Lighthouse performance scores by 30%+.
- Improved organic search visibility via Next.js SSG, structured metadata, and next/image optimization, reducing Largest Contentful Paint from 4.1 s to 1.7 s.
- Implemented backend services with Node.js, Express.js, and MongoDB to power scalable, data-driven features across both platforms.

Frontend Developer (Contract)

Oct 2023 – Sep 2024

Energy Trucking Company · Tashkent, Uzbekistan

- Developed the CityFuel CRM in React.js, streamlining fuel-discount management, invoicing, and logistics workflows for 50+ daily active users.
- Cut application load times by 20–30% via code splitting, lazy loading, HTTP caching, and Webpack tree-shaking, moving Core Web Vitals from 'Needs Improvement' to 'Good'.
- Refactored an Angular 8 logistics platform to Angular 15 standalone APIs, resolving 20+ open UI defects and reducing support tickets by ~35%.

Frontend Developer & Mentor

Sep 2022 – Mar 2023

Robotics Lab · Tashkent, Uzbekistan

- Built TypeScript UI components integrated with RESTful APIs, supporting internal lab tooling used across 3 active student cohorts.
- Mentored 10+ junior developers through weekly workshops and code reviews covering React.js, Jest unit testing, debugging, and performance optimization.
- Achieved 100% project delivery rate among mentees – all participants shipped independent projects by program end.

Frontend Developer

Mar 2021 – Sep 2022

Dora IT Group · Tashkent, Uzbekistan

- Engineered 6+ production React.js applications – delivery systems, e-commerce platforms, pharmaceutical catalogues, and blogs – building a reusable component library that accelerated feature delivery by ~20% across projects.
- Implemented Redux for a multi-step e-commerce checkout managing 500+ SKUs, eliminating async state race conditions that had caused a 15% cart abandonment rate.
- Optimized a pharmaceutical product catalogue from 6.2 s to 2.8 s LCP by applying React.memo, lazy-loaded routes, and compressed image assets.

TECHNICAL SKILLS

Languages: JavaScript (ES2022+), TypeScript

Frontend Frameworks: React.js, Next.js, Angular

State Management: Redux Toolkit, Zustand, React Query

UI Libraries: Ant Design, Material UI, Tailwind CSS, Shadcn UI, PrimeNG

Testing: Jest, React Testing Library, unit & integration testing

Performance: Lighthouse, Core Web Vitals, Webpack, next/image, SSR/SSG

Backend & Data: Node.js, Nest.js, Express.js, MongoDB, PostgreSQL

Tooling & CI/CD: GitHub Actions, Leaflet.js, Figma

EDUCATION

B.Sc. Computer Engineering

Sep 2019 – Jun 2023

Tashkent University of Information Technologies · Tashkent, Uzbekistan

Data Structures & Algorithms, Computer Architecture, Embedded Systems, Software Engineering.

VOLUNTEERING

Mathematics Tutor

Sep 2020 – Dec 2021

School 46 · Safirkan, Bukhara, Uzbekistan

- Volunteered as a mathematics tutor for graduating students during the COVID-19 pandemic, running sessions concurrently with full-time university studies.
- Strengthened students' problem-solving skills and exam readiness, with the majority achieving passing scores on their final state examinations.
- Developed communication and mentorship skills that directly inform how I lead technical workshops and onboard junior developers today.
